## BrandTech® Precision Welding

BrandTech® Precision Welding, our computer-driven stud welding technology, can dramatically cut labor costs in refractory, insulation and fireproofing services while improving speed and accuracy.

- Automated welding provides consistent quality
- Better reach into tight and congested areas
- Reduced amounts of hexavalent chromium and exposure risk
- Higher productivity than conventional stick welding and/or current studs
- Wide range of setting controls enable welding on existing thin plate
- Can be used with unusual metals, such as Inconel 601, 1.25 Chromium and 253MA
